

ENRICHMENT PROGRAMME 2026/2027

Enrichment Programme

2026/27

INTRODUCTION

We believe that childhood should be a time of discovery and curiosity. Alongside our academically ambitious curriculum, our enrichment programme supports what we call Learning in Balance, helping every child develop confidence, creativity and character. This brochure is designed to show not only what your child can enjoy now but also what lies ahead, with brief explanations of each club.

Our clubs sit within five growth areas: Creators, Performers, Thinkers, Explorers and Athletes. Each offers something different, from creative expression to teamwork, problem-solving and understanding the world. Some clubs naturally cross more than one area, and this blend is part of the richness we offer. Our programme continues to evolve in response to demand and the interests of our children, so individual clubs may change and new opportunities will be introduced as interests develop.

We encourage you to explore this guide with your child, to talk about what excites them and to support them in trying something new. Our hope is that it helps your family find a balanced mix of activities that enriches their childhood and supports their academic journey.

Art Masters (5/6)

A chance for pupils with a passion for art to refine their technique and experiment with new media. They learn how to plan, create and evaluate their work — developing both creative confidence and artistic skill.

Art Portfolio Club - By Invitation Only

Designed for children who wish to build a body of artwork for scholarships and awards, and explore their individual style. It encourages patience, attention to detail and pride in craftsmanship. Please contact Isobel.beere@willingtonschool.co.uk for details.

Cooking (EYFS, KS1, 3/4/5/6)

Practical, hands-on fun in the kitchen! Pupils learn about ingredients, nutrition and teamwork while developing independence and life skills. Notes: please make allergies and dietary requirements known to Daniela beforehand.

M:Tech (Music Technology)

Children compose and record their own music using specialist software. It builds digital skills, creativity and confidence in using technology purposefully.

Painting (EYFS, Y1, Y2, 3/4/5/6)

A joyful and calming club where children experiment with colour, texture and form. Painting helps develop fine motor control and self-expression through creativity.

Podcasting Club (5/6) 🎧

An engaging introduction to researching, scripting, interviewing and audio editing. Pupils work together to create their own episodes, developing communication skills, confidence and digital literacy. By the end of term, the group will produce a polished Willington podcast series that reflects their interests and ideas.

Sewing (KS1, 3/4/5/6)

Introduces basic stitches, fabric design and hand-eye coordination. Children enjoy making small projects and learning the value of perseverance and precision.

Warhammer (5/6) 💡

Blends creative design with strategy, helping children plan ahead and think critically while crafting models and stories.
